

Patient Name: Emily Wong

Age: 50

Date: 2024-05-14

Diagnosis:

- Osteoarthritis of the Knee

Lab Results:

- X-ray: Joint space narrowing and osteophyte formation in right knee

Medications:

- Ibuprofen 400mg as needed
- Glucosamine-Chondroitin supplements

Doctor Notes:

Recommended physiotherapy exercises and weight management. Consider orthopedic consult if no improvement.
